** PRESS RELEASE **

10/12/2026

On October 9, 2026, in the early morning hours, the Seelyville Police Department with the Clay County Sheriff's Office initiated a traffic stop on Interstate 70 for multiple traffic violations.

During the course of the investigation, the driver was suspected of operating a motor vehicle while intoxicated. After an OVWI investigation, the driver failed field sobriety and preliminary testing. With assistance from the Putnam County Sheriff's Office and its K-9 unit, a positive K-9 indication led to the discovery of approximately 229 grams (approximately one-half pound) of suspected methamphetamine inside the vehicle.

The driver, identified as Robert Nagy, 35, of Terre Haute, Indiana, was arrested and faces the following charges:

- Operating a Vehicle While Intoxicated (OVWI) — Class C Misdemeanor
- Dealing in Methamphetamine — Level 2 Felony
- Possession of Methamphetamine — Level 3 Felony

The Seelyville Police Department appreciates the assistance and cooperation of the Clay County Sheriff's Office and the Putnam County Sheriff's Office K-9 unit during this investigation. Collaboration among law enforcement agencies plays an important role in addressing suspected criminal activity and promoting public safety.

All suspects are presumed innocent unless and until proven guilty in a court of law.

The Seelyville Police Department will continue its proactive efforts to keep drugs, criminal activity and impaired drivers off the roadways.

Grant Daley, Town Marshal
